Medical & Life Care Consulting

*Improving outcomes. Changing Lives.*

***Medical and Life Care Consulting Services has grown to become a Northeast leader in professional nursing services and solutions.***

***Our professionals combine over 200 years of nursing and rehabilitation experience to provide our clients with the services their case depends on.***

## OUR VISION

Each year millions of people experience a life-changing illness or catastrophic injury. Not only does the event greatly impact the life of the individual, but it also touches their families and loved ones. From the moment it happens and well into the future, lives are changed.

At Medical and Life Care Consulting (MLCC) we strive to support these individuals and families by partnering with professionals diligently working to improve those outcomes and positively impact the lives of their clients.

## OUR MISSION

When working with our legal service partners, it is our mission to provide professional, timely, and cost-effective solutions to maximize comprehensive health and wellness outcomes.

More simply stated... our number one goal is ***improving outcomes and changing lives.***

## ABOUT US

---

## OUR VALUE

As health care professionals, the foundation of our value lies within our experience and expertise in medical and rehabilitative care. Our team of nurse consultants bring to each case over 200 combined years of experience in medical and workers' compensation case management, catastrophic case management, hospital nursing experience and more.

Our value is further strengthened by our professionalism, highly skilled research team, evidenced-based approach to case analysis and projections, vast experience with complex case, and most importantly our commitment to improving outcomes and changing lives. Strengthen your case by strengthening your team and partnering with Medical and Life Care Consulting.

### EXPERIENCE & PROFESSIONALISM

---

Since opening our doors nearly eighteen years ago, we've provided solutions for over 7000 cases. Our extensive experience, expertise, and professionalism continue to set our nurse consultants apart and add value to each case we support.

### TIME SAVING & EVIDENCE-BASED

---

Our solutions are designed to save time while provide accurate, evidence-based evaluations and feedback on the injury, illness, care, and health related components of each case.

### CARING & THOUGHTFUL APPROACH

---

While primarily partnering with legal professionals, at MLCC, the individual and families impacted are always at the center of our focus.

## *Whether your case requires the full support of a nurse a Life Care Plan, or simply a Medical Chronology and*

### MEDICAL CHRONOLOGY & CHART REVIEW

Outline your client's medical care and treatments from date of injury or illness until trial or mediation occurs. Our medical chronologies summarize all medical records from time of injury to present, and thoroughly outline treatments critical in achieving successful outcomes and meeting your objectives.

### LIFE CARE PLANS

Be confident in your settlement claim with a comprehensive life care plan.

An MLCC Life Care Plan includes a summary of medical records to date, a synopsis of the patient's present status regarding all symptoms, and an outline of treatments and services needed.

### MEDICARE SET ASIDE ALLOCATIONS

Using industry best practices, we deliver a clinical approach to formulating a Medicare compliant Medicare Set-Aside (MSA) Allocation.

We provide MSA's for workers' compensation, liability, and no-fault settlements. MSA's are available in conjunction with your Life Care Plan or prepared independently.

**consulting team and a customized solution,  
Chart Review, we've got what you need.**

#### MEDICAL/LIFE PLAN COST PROJECTION

When completing medical cost projections, our professionals accurately identify the cost of goods and services needed for the future medical care of your client. Our evidence-based projections stem from a thorough understanding of medical records and treatments to date, and your client's billing and medication usage history.

#### LEGAL NURSE CONSULTING

Our legal nurse consultants become an integral part of your legal team. We serve as medical experts on your case by assisting attorneys and other legal professionals in interpreting records and charts, understanding medical terminology, and providing ongoing consultation on health care and related topics.

***Stop spending time researching medical jargon and trying to determine appropriate treatments and future medical cost.***

#### WHY MEDICAL AND LIFE CARE CONSULTING

---

As legal professionals, your understanding of the law, trial and negotiation skills, and time are valuable commodities. Stop spending time researching medical jargon and trying to determine appropriate treatments and future medical cost.

Our in-depth knowledge and experience with rehabilitation, medical records, health care recommendations, and evidence-based determinations provide a firm foundation for our value, our approach to nurse consulting, and the solutions we provide.

While you focus on the case and your client, an MLCC Nurse Consultant partners with your team to provide expert guidance in all matters relating to your clients injury or illness.
